EXPERIENCE

•InternPe

June 2023-July 2023

Web Developer Intern

Remote

- Developed responsive web applications using **JavaScript**, **HTML**, and **CSS**, adhering to industry best practices and standards.
- Implemented **CSS** preprocessors **Sass** and **LESS** to streamline styling and ensure consistent branding across all projects; reduced development time by **30%**.
- Integrated third-party **APIs** and libraries to enhance functionality and provide additional features to web applications.
- E-commerce Platform: Developed a fully responsive e-commerce website using **JavaScript**, **HTML**, and **CSS**. Integrated payment gateways and implemented a smooth checkout process.

EDUCATION

–IPS Academy,School Of Computers,Indore

June 2019-June 2024

Master Of Computer Application(Integrated)

CGPA: 8.16

TECHNICAL SKILLS AND INTERESTS

Languages: JavaScript, TypeScript, HTML, CSS, Media Query

Frameworks: React, Material UI, Chakra UI, Bootstrap

Cloud/Databases: SQL and NoSQL Databases, SQL Server, MongoDB.

Soft Skills: Team Work, Time management, Problem-solving, Work ethic, Adaptability

Coursework: Operating System, Data Structures, OOPS, Algorithm Design, Cloud Computing, Computer Networks, DBMS.

PERSONAL PROJECTS

–Real Time Chat Application

December 2022

- * Tools & technologies used: **JavaScript**, **React JS**, **Firebase API**
- * In 3rd Year of my studies, I developed a project on Real-Time Chat Application that is a web-based messaging platform built using **React.js** and integrated with the **Firebase API**. It enables users to engage in real-time conversations, exchange messages, and share media files seamlessly.Developed and maintained application functionality by **30%**.
- * Users can send and receive messages instantly, enabling real-time conversations.The application uses **Firebase Realtime Database** or **Cloud Firestore** to store and synchronize messages across multiple users and devices in real-time.

–Crypto Application

July 2023

- * Tools & technologies used: **JavaScript**, **React JS**, **Chakra UI**, **Coingecko API**
- * During internship, I developed Crypto App that is a web application built using React.js and integrated with the **CoinGecko API**, offering users a powerful and intuitive platform to track, analyze, and manage their cryptocurrency investments in real-time.Developed and maintained React applications resulting in increased efficiency by **20%**.
- * The app fetches real-time **cryptocurrency data** from the **CoinGecko API**,Users can view live prices, charts, and historical data for a wide range of cryptocurrencies.Providing best user experience and **optimize** the app by **70%**.

CERTIFICATIONS

–Full Stack Web Development(Udemy)

December 2022

- * Demonstrating mastery of **front-end** and **back-end web development**, **database management**, and **deployment** techniques through comprehensive training and hands-on projects.

–Advance Software Engineering Program (Walmart Global Tech)

July 2023

- * Gained expertise in advanced **software engineering concepts**, methodologies, and technologies through rigorous training and practical application at Walmart Global Tech.
